Work Experience

Honeywell

May 2025 – August 2025

Charlotte, North Carolina, 28202; (headquarters)

Integrated Supply Chain AI Data Science Graduate Intern

- Used Power BI to create functional reports for Honeywell sites that provide data-driven insights to enhance operational efficiency and support strategic decisions.
- Created Business Requirements Documents (BRDs) and Standard Work documents to streamline communication and workflow processes.
- Identified and documented inefficiencies in current team workflows by employing the A3 problem-solving methodology, aiding efforts to optimize processes.
- Develop enhancements in the UI/UX domain to fully utilize the new digital operations platform, improving overall user experience.

SPX FLOW

May 2024 – May 2025

Rochester, New York 14611

Intern

- Developed multiple 'Just Do It' initiatives to implement solutions based on Kaizen suggestion scheme recommendations.
- Carried out two A3 projects for the warehouse using problem solving methodologies based on lean principles.
- Presented weekly to upper levels of management about the status of my projects.
- Conducted data analysis using SAP files and strategically developed solutions based on the findings.
- Collaborated with material handlers and warehouse management to oversee inventory handling, storage, and distribution processes.
- Developed a wayfinding system for the warehouse.

Habasit Belting Inc

May – August 2022 | May – August 2023

Buffalo, New York 14206

Intern

- Coordinated and distributed order packets to the various departments requiring them.
- Supported the accounting and materials management departments to cycle count materials.
- Received training to cover the accountant's responsibilities and filled in for her when she was absent.
